WORK EXPERIENCE

Boston Consulting Group (BCG)

Houston, TX

Returning Associate

Aug 2025 – Present

- Product-managed the deployment of an AI-powered customer retention tool to 1,000+ customer service reps at a major waste management company, driving a 2x improvement in customer retention rates among active users.
- Built and deployed AI and ML initiatives to reduce bad debt expense for a Fortune 500 company; mapped on-the-ground workflows and interviewed stakeholders to shape implementation.
- Stood up a central PMO to run 4 transformational programs accounting for \$1+ billion in spend; built and deployed a tailored program management tool and rolled out access to executive-level stakeholders.
- Helped build and deploy a RAG-AI chatbot into a major utility company's customer service operation, reducing response times by 40% and cutting operational costs through automation and improved query resolution.

Blai

Boston, MA

Co-Founder & CTO (B2C crypto research and trading app)

Jan 2025 – Jan 2026

- Founded and built a zero-to-one AI-powered crypto research and trading platform: raised \$150K, shipped a live product, and reached a \$10M token market cap ATH.
- Owned the full product lifecycle - defined the roadmap, ran customer discovery, managed engineers, and shipped personalized AI-driven insights in a high-ambiguity, zero-resource environment.
- Led go-to-market, investor relations, and partnerships, building the pitch materials and fundraising strategy that secured pre-seed capital.

McKinsey & Company

Boston, MA

Solutions Delivery Analyst (Co-op Internship – 6 Months)

Jan 2024 – Jun 2024

- Used SpendScape categorization software to analyze and classify over \$25 billion in expenditure data, turning it into procurement strategies and significant cost-saving opportunities across multiple industries.
- Led the design and implementation of a spend categorization and taxonomy framework for a leading national utility company, improving organizational spend efficiency by 65%.
- Built and presented decks on applying generative AI in procurement, including new approaches to taxonomy creation that drive operational improvements.

Fells View Capital

Boston, MA

Search Fund Intern

Oct 2023 – Feb 2024

- Researched and performed due diligence on SaaS and supply chain businesses, writing weekly industry theses to identify niche investments in the \$3M–\$10M revenue range and build the Fells View deal pipeline.
- Ran an outreach campaign of customized HubSpot email sequences to 200+ companies monthly, achieving 22% response rates and moving potential investments toward Letters of Intent (LoIs).

Bain & Company

Boston, MA

Business Analyst (Co-op Internship – 6 Months)

Jan 2023 – Jun 2023

- Worked with product owners to pilot a knowledge management chatbot, improving information retrieval and operational efficiency.
- Contributed to the chatbot's chunking strategy and created a company-wide training video on LLM prompting viewed by 1,500+ employees.
